

**DRAFT**

<b>Watershed Program and Departments</b>	<b>Geographic Scope</b>	<b>Purpose</b>	<b>Funds</b>	<b>Status</b>
<b>CalFed Restoration Program</b>		Restoring bay-delta ecosystem habitats and function; priorities include salmon, salt marshes, riverine woodlands, and water quality.		
<b>CalFed Watershed Mgmt Program: SWRCB, DWR, CDF, DFG</b>	Sacramento and SJ Valleys	Coordination, monitoring and assessment protocols, education and outreach, integration with CalFed, and establishing strategy for long-term local watershed activities	\$20 million in Prop 13 grants (\$18 mill awarded) in 2000/01; 2001/2 - \$13.5 million in grants plus \$6 million for 14 new PY and contracts	Prop 13 grants and permanent staff; Stakeholder Watershed Working Group advises. Grant priorities (assessment, planning, and capacity building for year one) will change over time. Grant program requires project-level monitoring for all projects. PY will work across all categories. <del>No federal funding yet</del>
<b>Coastal Conservancy Matching Grant Program</b>			\$10 million	
<b>Coastal Impact Assistance Program</b>	Entire coast	Mitigation and enhancement for OCS related impacts, including capital improvements	\$15.4 million total; x for watershed projects	One-time funding (3 year duration); Largely project focused, though Resource Agency projects support monitoring, education
<b>Coast Resources Grant Program</b>	Coastal counties	Mitigate for OCS impacts and enhance coastal resources	\$3 million (last of five year program) - \$1.5 for watershed activities	Awards have progressed over time from planning to more implementation. Effort to extend program under way.
<b>DOC Watershed Coordinator Grants to RCDs</b>	Statewide	Fund watershed coordinators for Resource Conservation Districts (RCDs)	\$2 million	Funded by Legislature as two year pilot project only. No permanent funding.

**DRAFT**

<b>Watershed Program and Departments</b>	<b>Geographic Scope</b>	<b>Purpose</b>	<b>Funds</b>	<b>Status</b>
<b>DWR Urban Streams Restoration Program Grants</b>	Statewide (urban areas)	Assist communities in reducing damages from stream bank and watershed instability and floods while restoring the environmental and aesthetic values of streams, and to encourage stewardship and maintenance of streams by the community	\$2M (Prop 13)	\$10 million 2001/2
<b>Fishery Restoration Grants Program</b>	Coastal counties	To restore watershed, riparian and instream habitats for anadromous salmonids in coastal watersheds.	\$20.5 million in General Fund, Prop 13 and federal fund	Stakeholder and technical advisory committees. Currently largely proposal driven; SB 271 doesn't allow funding for baseline monitoring.
<b>For Sake of Salmon Coastal Watershed Coordinators (Resources Agency)</b>	Coastal counties	Technical assistance to watershed groups	\$230,000	Funds three regional coordinators or "circuit riders".
<b>North Coast Watershed Assessment Program: DFG, CDF, DWR, DOC, NCRWCB</b>	North Coast Hydrologic Region (Marin to Oregon)	Interagency, interdisciplinary scientific assessments to provide data, maps & reports to guide salmon restoration investments; watershed planning and conservation strategies; project planning and review	\$7M/yr; 56 PY	Permanently staffed State program, implemented late last year. Will turn out first completed products 01/01/02. Needs to be linked with watershed group development, dedicated follow-up outreach and training for locals, and integrated into depts.
<b>SWRCB programs - to be added</b>				
<b>Southern CA Wetland Recovery Project</b>	South coast: Santa Barbara to San Diego	Acquire, restore, and enhance coastal wetlands & watersheds.	\$5 million in General funds; x for watershed activities	Partnership of state and federal agencies working with local govt, business, and environmental community; includes management, public advisory, and science teams

***DRAFT***

Watershed Program and Departments	Geographic Scope	Purpose	Funds	Status
---	---------------------	---------	-------	--------

**Gaps:**

- 1) east side watersheds,
- 2) watershed level monitoring
- 3) comprehensive watershed level assessment everywhere but North Coast,
- 4) tech support from agencies to go with DFG coastal grants
